

# GREATMAN JUSTUS UNYE-AWAJI

## Data Scientist | AI & Machine Learning Specialist

Email: spiritpydev@gmail.com | Phone: +234 (0)901 415 5705

Website: www.kinggreatmanspirit.com | LinkedIn: www.linkedin.com/in/greatman-pydev

---

## PROFESSIONAL SUMMARY

Innovative Data Scientist with expertise in ML, DL, AI, and LLMs. Builds predictive models and AI systems that drive business insights and efficiency. Skilled in Python, TensorFlow, PyTorch, Scikit-Learn, and NLP, with experience in end-to-end AI/ML workflows including preprocessing, feature engineering, and deployment.

---

## TECHNICAL SKILLS

- **Programming & Frameworks:** Python, TensorFlow, PyTorch, Scikit-Learn, OpenAI API, Hugging Face Transformers
- **Data Science & AI:** Machine Learning, Deep Learning, Artificial Intelligence, NLP, Prompt Engineering, Computer Vision
- **Data Manipulation & Analysis:** Pandas, NumPy, Matplotlib, Seaborn
- **Databases & Cloud:** MySQL, PostgreSQL, Google Firebase
- **Development & Tools:** Git, Docker, Jupyter Notebook, Google Colab, FastAPI, Flask
- **Model Deployment & MLOps:** Streamlit, TensorFlow Serving, Kubernetes, AWS S3

---

## PROFESSIONAL EXPERIENCE

### Freelancer — Data Scientist | Instructor (February 2024 – Present)

- Delivered AI/ML solutions including predictive models, NLP apps, and deep learning systems.
- Implemented LLM-powered applications using OpenAI GPT & Hugging Face models.
- Built AI-driven automation solutions, improving business efficiency by 30%.
- Conducted AI/ML consulting and training for clients and teams.

---

## KEY PROJECTS

### Predictive Modeling & Regression

- House Price Prediction System | Real Estate Analytics | Nov 2024  
Built gradient-boosting regression model predicting residential property values using socio-economic and geographic features. Highlights key price drivers for investment decisions.
- Decision Tree Housing Price Prediction | Real Estate Analytics | Mar 2025  
Applied Decision Tree Regressor for interpretable real estate pricing insights.
- Random Forest Regression Analysis | Gaming Analytics | Jan 2025  
Developed ensemble regression model predicting task durations, capturing non-linear relationships.

- Gold & Car/House Price Prediction  
Built regression models for financial and real estate predictions.

### **Classification & Detection**

- Fake News Detection | Media Analytics | Dec 2024  
End-to-end NLP solution for detecting misinformation using vectorization and supervised classification.
- Diabetes Risk Prediction | Healthcare Analytics | Jan 2025  
Supervised classification model assessing diabetes risk from clinical data.
- Heart Disease Prediction | Medical Analytics | Apr 2025  
Binary classification predicting heart disease, emphasizing interpretability and reliability.
- Rock vs Mine Classification | Defense Analytics | Jan 2025  
Supervised learning classifier distinguishing sonar signals.
- Wine Quality Classification | Food & Beverage Analytics | Apr 2025  
Multi-class classification predicting wine quality, highlighting feature impacts.

### **Time Series & Forecasting**

- Air Quality Forecasting | Environmental Analytics | Jan 2024  
Time series model estimating daily AQI using historical pollution and weather data.  
**Tools:** Python, Scikit-Learn, Pandas, Matplotlib
- Grocery Sales Forecasting | Retail Analytics | Mar 2025  
Predictive model for sales forecasting supporting inventory planning and operational efficiency.

**Tools used across projects:** Python, Scikit-Learn, Pandas, Matplotlib, NLP

**Repository:** All project files available: <https://bit.ly/Greatman-ML-Repo>.

---

## **EDUCATION**

- B.Sc. Computer Science (In View) — University of the People, Pasadena, California
- ND Computer Science — Captain Elechi Amadi Polytechnic, Port Harcourt, Nigeria

---

## **CERTIFICATIONS & TRAININGS**

• Microsoft Power BI Specialization • Data Analyst Bootcamp • Machine Learning – Great Learning • Cloud Computing – Great Learning • HP LIFE: Data Science & Analytics • Prompt Engineering – Alison • Artificial Intelligence – HP LIFE • Data Science & Analytics – HP LIFE

---

## **LANGUAGES**

English — Fluent • French — Basic (Learning)
